

Commercial And Industrial Rotationally Molded Brine And Storage Tanks

Commercial and industrial water softeners require a large volume of brine during each regeneration. From a capacity of 65 gallons to 500 gallons our Rotationally Molded Brine Tanks are built to last. Molded out of durable, chemically resistant high density polyethylene, their 1/4" seamless walls won't bulge. All tanks are black, cover included. Rotationally Molded Brine Tanks are strong enough to handle your toughest brine requirements.

Tank Size	Order No.	Diameter (Inches)	Height (Inches)	Salt Capacity (Pounds)	Volume (Gallons)	Weight (Pounds)
20 x 48	G22048CB1P00	20	48	600	65	29
24 x 48	G22448CB1P00	24	48	800	95	34
30 x 48	G23048CB1P00	30	48	1200	145	53
39 x 48	G23948CB1P00	39	48	2200	250	70
39 x 60	G23960CB1P00	39	60	2700	300	83
42 x 60	G24260CB1P00	42	60	3100	350	97
50 x 60	G25060CB1P00	50	60	4500	500	113

Note:

1. Tank sizes 20 through 42 inches in diameter include a carton. The 50 x 60 tank is shrink wrapped only.
