

PINNACLE

Whole House Water Filter & Purifier

KDF55 (Redox)

Removes chlorine as well as inorganic compounds such as heavy metals (i.e., lead, mercury, arsenic, etc.) Also reduces bacterial growth within filter media. *(Listed with the U.S. EPA as a bacteriostatic device. U.S. EPA 3 54369-OH-001)*

Activated Carbon

Removes free chlorine and most other volatile organic chemicals from the water.

Garnet

Finer filtering next to washed quartz media base prevents other media from packing around distributor, maximizing flow rates. Also aids in even distribution of water, preventing channeling.

Washed Quartz

Provides solid base for media to rest on, preventing channeling of media and maximizing flow rates.
